STUDENT CENTRIC TEACHING LEARNING METHODOLOGY

F.Y B.Sc NURSING 2022-23

Date : 9/08/2023

Subject : Nursing Informatics

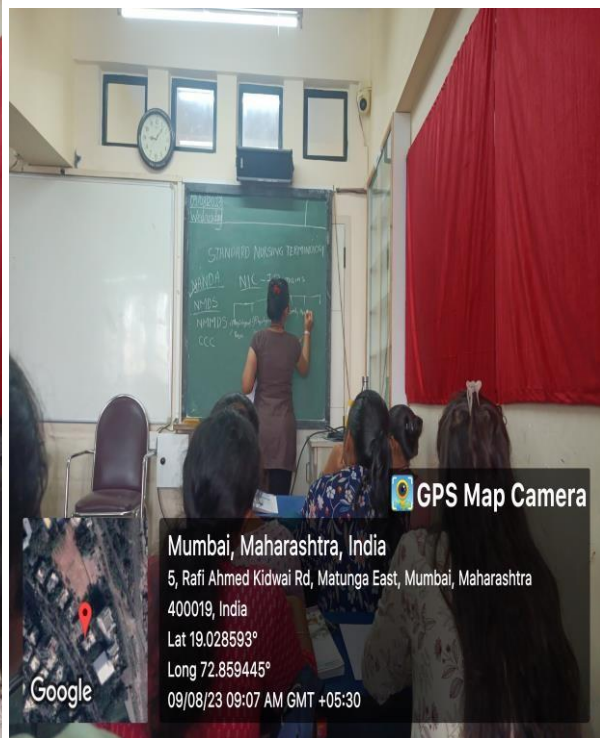

Participants : 49

Method : Problem solving and Self directed learning

2 Micro teaching topics were given to each student. They were judged for their presentation skills and ability to prepare content based on topics given. These presentations help them to built confidence in speaking publicly, improve teaching skills and also exchange updated information which is important as per their curriculum.

Objectives

1. To develop teaching skills.
2. To help them develop confidence in facing large group.
3. To keep themselves updated in knowledge.

STUDENT CENTRIC TEACHING LEARNING METHODOLOGY

F.Y B.Sc NURSING 2022-23

Date : 22/11/2023
Subject : Nursing Informatics
Participants : 49
Method : Project Based Learning

After Kiran Boini mams session students were given practise assignments on microsoft word, excel and powerpoint. The students prepared projects in the computer. This enhanced their confidence in handling the digital technology and gave them scope to explore their abilities.

Objectives

1. To provide practise by demonstration in computer lab.
2. To help them overcome difficulties in handling technology.
3. To prepare digitally smart nurses.

REPORT OF EXPERIENTIAL LEARNING (A.Y 2022-2023)

DATE: 06-09-2023

TIME: 11 am- 12pm

CLASS: First year BSc Nursing (SEM –II)

SUBJECT: Fundamentals of Nursing

TOPIC: Diagnostic procedure

NUMBER OF STUDENT: 49

METHOD OF EXPERIENTIAL LEARNING: Patient centric & evidenced based learning

METHOD OF EXPLANATION ABOUT THE METHOD

Experiential learning plan on topic Diagnostic Procedure. Theory part were taken and same day demonstration practices.

OBJECTIVES

- To demonstrate and re-demonstrate the diagnostic procedure.
- To demonstrate and re- demonstrate the collection of blood sample, urine collection, etc.

COLLEGE OF NURSING**

REPORT OF EXPERIENTIAL LEARNING

DATE	: 05/12/2023
TIME	: 10am -2pm
SUBJECT	: Nutrition
UNIT IX, VII	: Therapeutic diet and balanced diet
NUMBER OF PARTICIPANTS	48
PARTICIPANTS	: First Year B.Sc. Nursing
METHOD OF EXPERIENTIAL LEARNING	: Food Demonstration

METHOD OF EXPLANATION ABOUT THE METHOD:

Experiential Learning plan on Food Demonstration where our students demonstrated therapeutic diet and simple diet, and prepared diet for various disease condition and balanced diet. Food was made by measuring each ingredient .They also displayed the food which was prepared by them

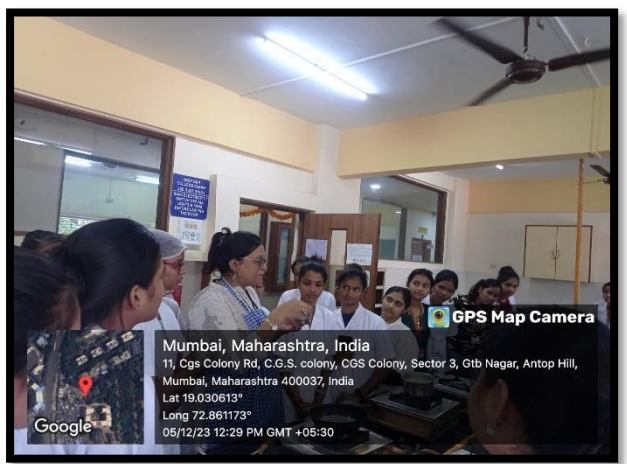

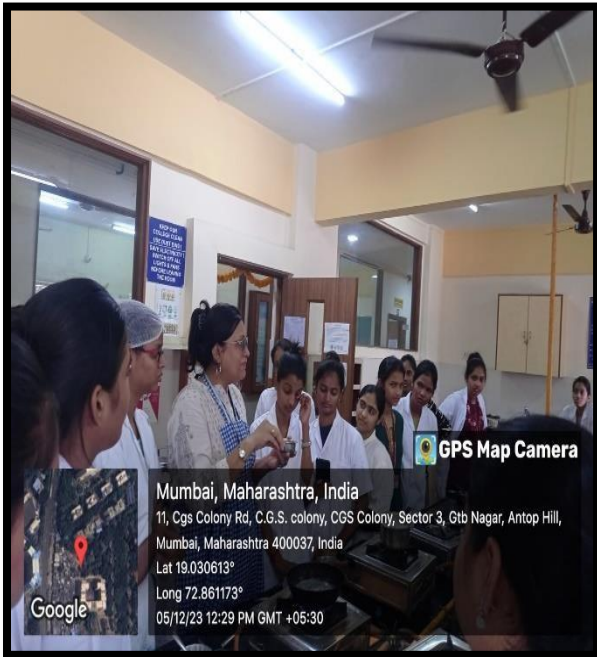

OBJECTIVE:-

1. Understand why a cooking demo is an effective way to spread your nutrition message.
2. Discover the steps going into the execution of a professional and memorable cooking demo.
3. Develop skills used by pro food stylists, media spokespersons, and chefs to make your cooking demo appear effortless and magical.

(Interdisciplinary learning with horizon /vertical integration)

DATE: 29/09/2022

TIME: 10.30am-12.30pm

VENUE: SMES SSPG CON MATUNGA, 7TH FLOOR

NO OF STUDENTS: 35

Aims and objectives for Stoma care

- To understand how waste products are excreted out of the body
- To be able to identify any abnormalities faeces
- To be able to identify any abnormalities in stomas
- To be able to care for stomas

Session done on stoma care under subject Adult health nursing-I, for a semester III students. The session was very informative for students perspective. The session covered the following point

1. Stoma introduction
2. Types of stoma
3. Stoma marking and stoma pouch changing procedure
4. Care after stoma bag changing
5. Colonic irrigation procedure
6. Health education/ discharge advices

REPORT OF EXPERIENTIAL LEARNING (DIDACTIC TEACHING)

YEAR: Second Year B.Sc. Nursing (2022-2023)

SUBJECT: Applied Microbiology and Infection Control And Safety, Adult Health Nursing-I, Pharmacology & Pathology.

OBJECTIVE: Review of lecture according to syllabus.

The value of Didactic Teaching is generally perceived as being in transmitting facts, which will increase a student's knowledge and therefore their ability to succeed in the world. For Second Year B.sc nursing we took a lectures of each subject according to their syllabus. In the lectures each teacher are using modern technology, new methods & technique to provide detail knowledge to the students. At the end of the lectures students will gain the knowledge to complete the task alone and they will be skillfull.

REPORT OF EXPERIENTIAL LEARNING

Project based learning

**(Health camp on Hypertension, Diabetes Mellitus, Tuberculosis, Cancer, Anemia & BLS
at SR Mehta Hospital)**

Date: 25/08/23

Time: 8am to 11.30am

Subject: Adult Health Nursing I

Objective:

1. To enhance knowledge & practices related to Disease conditions.
2. To enhance Confidence & presentation skills

A Project based learning was planned for 2nd yr B.Sc. Nursing students in Adult health Nursing I by Subject incharge Ms. Namrata Chopdekar. Health camp was arranged by students on topic **Hypertension, Diabetes Mellitus, Tuberculosis, Cancer, Anemia & BLS** at SR Mehta Hospital.

Students had prepared innovative, interesting yet informative models for this project. Patients and their families, health care professionals found to be interested in this health camp with exhibition. Concern students had cleared their doubts related to disease conditions.

At the end of project students were more confident and were satisfied with this activity.

FEEDBACK OF OUR GROUP :

Our group had a great experience due to this exhibition. We learnt many new things about handling the crowd, how to manage all the stuffs. We also gained a lot of confidence and good communication skills. It was a wonderful exhibition to share lot of information to the public and to provide them knowledge about the diseases. It was a useful and helpful camp for the public. Looking forward for such kind of exhibitions which will help the public and also for us to gain knowledge and to have a great experience.

FEEDBACK OF OUR VIEWERS :

The visitors who had visited our stall gave an amazing response towards it. They also mentioned that it was a great exhibition and helpful. They all liked our models & creative charts. They also received lot of information about the disease. Visitors also liked our management & the way of conversation with them. The overall department & college had appreciated us for our efforts.
