ABOUT SEVA MANDAL EDUCATION SOCIETY

Society (SMES) has been a pioneer in providing quality education to women students ever since it began on a humble note in 1957 with just seven students. The campus at the heart of a thriving educational suburb of Matunga, today hosts seven institutions with over 6000 female students who predominantly come from low socio-economic and conservative backgrounds. Several of our students reside in the nearby locality of Dharavi which is one of the largest slums of Mumbai. They are, in fact, the first generation in their families to pursue a college education with parents being employed in professions such as auto rickshaw / taxi drivers, vegetable vendors and household maids.

It is the mission of SMES to offer every opportunity to women students from across every strata of society, to pursue their aspirations and strive for a better quality of better life that only a skill-based education can ensure.

SMES supports needy students through various schemes such as free rations, medical checkups and medical aid, scholarships, book bank facility, free notebook, umbrella distribution and personal and family counselling to encourage them to come to the campus and complete their education, thus becoming employable. And yet, it is found that students are still not in a position to pay the basic fees of skill based programs specially designed by the conducted colleges in order to enable women students to achieve of financial independence and therefore become empowered.

'UNNATI' SKILL ENHANCEMENT SCHEME

Proposition:

The 'Unnati' skill enhancement scheme aims at providing focused training to students in specifically tailored courses that will parallel to their undergraduate programs. The objective is to prepare students for careers in related workplaces. As a step towards ensuring employability, conducted colleges under SMES have established placement cells which invite potential employers in order to assist student to gain jobs on completion of the courses. Prominent companies that have taken up students in respective areas include ICICI bank Kotak Securities and Prudential Life Insurance Company (Finance and Media); Fortis hospital, Global hospitals and Reliance hospital (Health and nursing); Deloitte, Capgemini and Infosys (I.T.); Bliss Salon, Lakme Salon (Beauty Industry); and Little @ Co. HNT Legal Law firm (Law).

Target Audience: Enrolled students of conducted colleges on Seva Mandal Education Society Campus

Number of expected learners: 1000

Students per batch and duration of course: As per the requirements of the individual course content

Project Duration: 3 Years

A. CAPITAL COSTS

Details	Number(s)	Cost per unit	Total Cost in Rupees
Setting-up of Multi-Purpose Smart Rooms (Including Laptops, Desktops, Printers, Mikes, ICT infrastructure Set-up, Wiring and maintenance)	08 Rooms	Rs.2,95,765	Rs.23,66,120

Rational:

In an era where educational technology is replacing the traditional chalk and board approach, the most cutting-edge teaching tool is a smart board which offers the advantages of technology, convenience, easy maintenance, and student interaction all in one. Learning processes are facilitated when information is visually represented on interactive whiteboards through use of images, graphs, flowcharts, and animated movies. The use of smart boards encourage engagement and offer teachers the opportunity to establish a positive learning experience by making teaching-learning and even evaluation exercises participatory. To support instruction, teachers can link their laptops, video cameras, digital cameras and other devices and access internet resources which will enhance the learning experience. It is also possible to introduce innovative evaluation methods. Importantly students from marginalized sections will be able to partake in a technology which is contemporary and essential to overall skill development.

B. SUBSCRIPTION TO ZOOM: (cloud-based video conferencing too)

Zoom subscription for two years for 20 Licenses : Rs 2,64,000

Rational

Smart boards also facilitate the conduct of lectures via hybrid mode wherein experts from outside and the industry can be invited to give lectures from their respective locations. Students who cannot attend particular sessions physically can also be invited to do so via the online mode. For the purpose of offering hybrid mode of instruction, the institutions will have to take up zoom package which allows for unlimited time as well as the maximum number of participants.

AN APPEAL

The 11 courses proposed under project 'Umat' have been formulated in collaboration with experts from the related fields of Management, Media, IT, Beauty Industry, Health and Law with the objective of equipping students with skills to make them employable. We do not wish to compromise with the quality of education offered in terms of qualified faculty or infrastructure as we believe that every student deserves a fair and equal opportunity. However a large number of our students come from economically underprivileged backgrounds and face financial constraints and cannot pay the course fees, however basic it may be. We therefore make an earnest appeal to the Rotary Club of Queen's Necklace, to support us in this cause by contributing towards the conduct of these courses for needy students. We seek your support in our mission of working towards the empowerment of women through the powerful tool of education.
